

Canadian Electrical Contractors Association The National Voice for Canada's Electrical Contracting Industry

Mission

CECA is the voice of the electrical contracting industry, advancing interests of electrical contractors through national advocacy, influencing electrical codes and standards, member education, sharing of best practices and collaboration with industry partners.

Vision

CECA envisions a unified, profitable and progressive electrical contracting industry, operating with the highest professional and technical standards.

Values

Respect, Collaboration
Communication, Leadership
Safety

KEY RESULTS AREAS and Objectives – Where we focus efforts

1. Training, Human Resources/Contractor Development

- 1.1 Support and develop common policy positions and efforts nationally with NETCO (National Standards and Red Seal; Foreign Credential Recognition; Respectful and Inclusive Culture)
- 1.2 Support and promote contractor training programs across Canada and facilitate the sharing of best practices
- 1.3 Support the implementation of a Learning Management System (LMS) for contractors and workers (NETCO)
- 1.4 Support common harmonized apprenticeship training

2. Commercial and Industry Practices

- 2.1 Promote and advance the interests of the Canadian electrical industry through National Trade Contractors Council of Canada (NTCCC) and by providing support to ECA's for provincial advocacy.
- 2.2 Engage, whenever possible, with other organizations on electrical issues to ensure the electrical contractors voice is heard. (Electricity Human Resources Canada)
- 2.3 Introduce and make available key electrical publications and products
- 2.4 Support Canadian electrical research (ELECTRI)
- 2.5 Share relevant labour market information

3. Electrical Codes and Standards

- 3.1 Provide leadership and contractor insight on electrical code, standard development and implementation in Canada at the CSA and other authorities having jurisdiction, including standardizing code adoption across Canada.
- 3.2 Make available the Canadian Electrical Installation Standards (CEIS) to members, architects, engineers, designers, trainers and schools. Identify new opportunities for Canadianizing international electrical standards

4. Member Engagement, Communications and External Relationships

- 4.1 Provide regular communication to better inform the ECA's of CECA activities on national issues related to the electrical industry across Canada.
- 4.2 Ensure CECA products are available in both official languages
- 4.3 Support CECA/NECA Student Chapters in Canada
- 4.4 Provide leadership and represent the interests of the electrical industry on national issues through our affiliations with similar and relevant organizations. (NETCO, NECA, NTCCC, CCA, GCAC, EHRC)
